Profile

I'm a self-taught Python developer with a passion for web development and automation. I've gained good experience working with Django and Django Rest Framework to create websites and APIs. I also use tools like Selenium for testing and Beautiful Soup with Requests for web scraping. Alongside Python, I work with JavaScript, Express, JSON, AJAX, HTML5, Tailwind CSS, and MySQL. My goal is to keep learning and improving while contributing to projects that make a positive impact

Education

Jul 2021 - 2025
- Bachelor of Science in Computer Science
- Don Honorio Ventura State University, Bacolor, Pampanga
- Learned Programming languages like C++, Java, and PHP
- Study web development, including HTML and CSS.

Personal Project

Name: Zappy
Repo: https://github.com/justinzapanta/Ecommerce-Website

I built an online shopping website using Django, Stripe, HTML, and Tailwind CSS. The site is designed to be easy to use and works well on all devices. I added secure payment processing with Stripe to make buying and selling simple and safe. This project highlights my skills in creating useful features for e-commerce websites.

Name: Basa Well
Repo: https://github.com/justinzapanta/Ecommerce-Website

I created Basa Well, a website for reading manga and webtoons, using Django, the Mangadex API, Tailwind CSS, and HTML. The site is designed to be simple and easy to navigate, providing users with a seamless reading experience. This project highlights my ability to integrate APIs and develop practical web applications.
